(application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. ## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

**Allowance**

***Allowable Subject Matter***

Claims 1-24 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not fairly suggest the apparatus of claim 1, the system of claim 9, and the method of claim 13. Specifically, claims 1 and 9 teaches an apparatus for measuring power of acoustic energy comprising a buoyant body floating in a fluid having a second density less than a first density such that the body floats at a first level in the fluid in the container when the body is not impacted by acoustic energy. Furthermore, the body comprising a wave receiving surface and floats at a second level when the wave receiving surface is impacted by acoustic energy transmitted by an ultrasound transducer. Method claim 16 provides a body floating at a first level in the fluid adjacent to an ultrasound transducer, impinging a surface on the body with acoustic energy from the transducer and measuring the displacement of the body from the first level to the second level to indicate the power of the acoustic energy impinging the surface of the body. Rohrberg, '5474064' teaches a breast self examination wherein the body is placed in a fluid and the body becomes buoyant (claims 1-5), but does not teach a body floating at a first level in the fluid adjacent to an ultrasound transducer, impinging a surface on the body with acoustic energy from the transducer and measuring the displacement of the body from the first level to the second level to indicate the power of the acoustic energy impinging the surface of the body. Kozuka et al., teaches ultrasound examination on a liquid medium (columns 4-5) but there is no body placed in

Art Unit: 3737

the medium. Rohrberg '5979457' teaches breast examination through a finger point method (column 6-8 and claim 1) but does not teach a body floating at a first level in the fluid adjacent to an ultrasound transducer, impinging a surface on the body with acoustic energy from the transducer and measuring the displacement of the body from the first level to the second level to indicate the power of the acoustic energy impinging the surface of the body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
